PROFESSIONAL SUMMARY

I am a software engineering student with a strong interest in building intelligent and user-focused applications. I have hands-on experience in python development, mobile app development, machine learning, and digital solutions. I am eager to apply my skills in a professional environment and contribute to innovative and impactful projects as I transition into my career.

PROFESSIONAL EXPERIENCE

Python Developer Intern

AITSL – Attock Information Technology Services Ltd.

june 2025 – September 2025

- I gained hands-on experience as a Python Developer Intern, working on full-stack web applications using Python, Flask, and Django. I contributed to real-world projects including a Vehicle Maintenance System, Legal Case Management System, and Event Log System. This internship enhanced my skills in backend development, database handling, testing, deployment, code reviews, and professional software development practices.

Python Programming Intern

Apexcify Technologys

April 2026 – May 2026

- I completed a Python programming internship focused on automation, scripting, and practical application development. During this internship, I developed projects including an Email Automation System, Stock Portfolio Tracker, Task Automation Scripts, and a Rule-Based Chatbot. This experience enhanced my Python programming, problem-solving, debugging, and automation skills through hands-on project-based learning.
-

EDUCATION

Bachelor of Software Engineering

Capital University of Science & Technology, Islamabad

CGPA: 3

Year: September 2022-July 2026

ICS in Computer Science

Punjab College Morgah Rawalpindi

Passed with 740 marks

2021 – 2022

Matric

F. G. Public School (2nd Shift), Morgah, Rawalpindi Cantt.

Passed with 690 marks

2020

Projects

1. Vehicle Maintenance System (ARL – Attock Refinery Limited)

Built a web-based vehicle management system using Flask to manage vehicle records, maintenance history, and operational tracking.

2. Legal Case Management System (ARL – Attock Refinery Limited)

Developed a legal case handling system using Flask and Django frameworks for managing legal records and case workflows.

3. Event Log System (AITSL – Attock Information Technology Services Ltd.)

Created an event monitoring and logging system using Django FSM-2 to manage and track system event activities efficiently.

4. Taxi Booking System

Developed a web-based taxi booking platform using Flask with booking management and service handling features.

5. Hire-A-Helper – Service-Based Web Platform

Built a service marketplace platform that allows users to hire service providers through an interactive web interface.

6. Email Automation System

Developed a Python-based automation system for sending and managing emails efficiently using scripting techniques.

7. Stock Portfolio Tracker

Built a Python application to monitor and manage stock investments with portfolio tracking functionalities.

8. Task Automation Scripts

Created multiple Python automation scripts to simplify repetitive tasks and improve workflow efficiency.

9. Rule-Based Chatbot

Developed a basic AI chatbot using Python capable of handling predefined user queries and responses.

10. Speech To Text Predictor (STTP) – Final Year Project

Developed a real-time AI assistive mobile application that detects stuttering patterns during live speech and provides instant intended word predictions for communication support. Integrated Machine Learning, NLP, Flutter, FastAPI, Firebase, and TensorFlow Lite to improve accessibility and conversational fluency for people who stutter.

Skills & Languages

Programming: JavaScript, Python, C++, Java, Kotlin, Dart

Frontend: React.js, HTML, CSS, Flutter, Dart, UI/UX Understanding

Backend: Node.js, Python, Flask, Django, FastAPI, Kotlin

Databases: MongoDB, SQL Server, Firebase, Database Management

Mobile App Development: Flutter, Android Studio, Firebase Integration, TensorFlow Lite

AI/ML & APIs: Machine Learning Basics, NLP Basics, REST APIs, Model Integration

Tools: GitHub, VS Code, Android Studio, Google Colab, Postman

Digital Marketing Tools: MozBar, SEMrush, SEO Tools, Social Media Management

Professional Skills: Good Communication, Fast Learner, Creative Thinking, Teamwork, Time Management, Problem Solving, Debugging

Languages: English, Urdu

INTERESTS

AI / Machine Learning

Android Application Development

HOBBIES

Gym

Cricket

Walking

Certifications

Python Programming Certification

HTML Front-End Development Certification

Basics of Python Certification — UniAthena & Cambridge International Qualifications, UK

Apexcify Technologies Virtual Internship Program 2026 — Python Programming

6-Week Internship Certificate — AITSL Attock IT Solutions Pvt. Ltd.
